

Addition

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $9+8=$ followed by a large empty square for the answer.

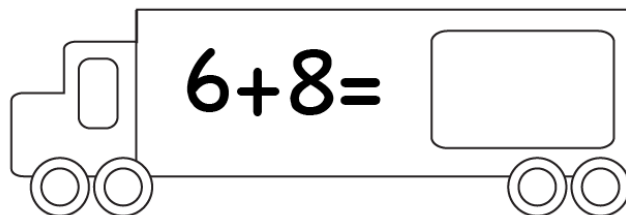

$9+8=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $9+6=$ followed by a large empty square for the answer.

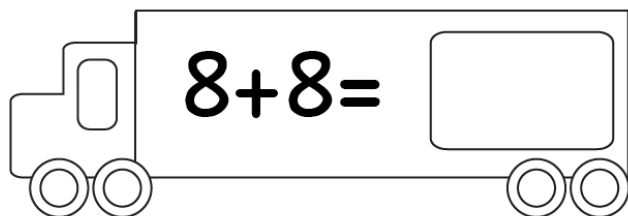

$9+6=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $7+9=$ followed by a large empty square for the answer.

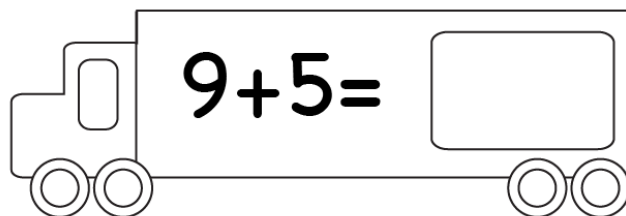

$7+9=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $6+8=$ followed by a large empty square for the answer.

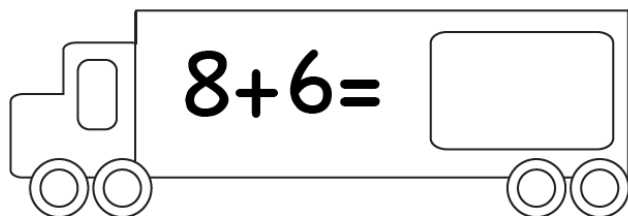

$6+8=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $8+8=$ followed by a large empty square for the answer.

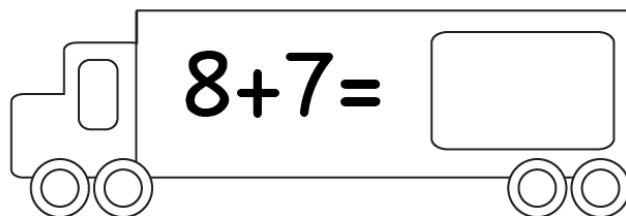

$8+8=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $9+5=$ followed by a large empty square for the answer.

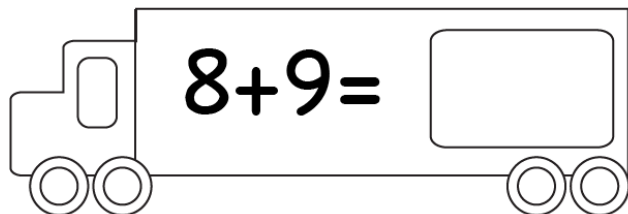

$9+5=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $8+6=$ followed by a large empty square for the answer.

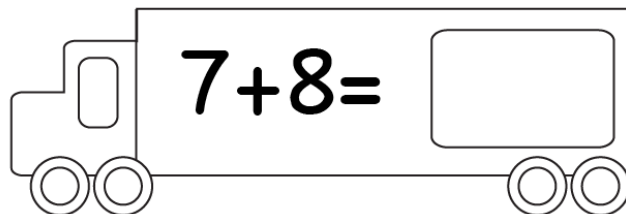

$8+6=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $8+7=$ followed by a large empty square for the answer.

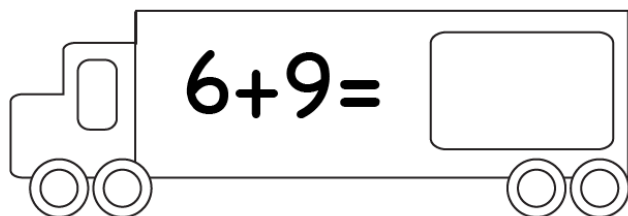

$8+7=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $8+9=$ followed by a large empty square for the answer.

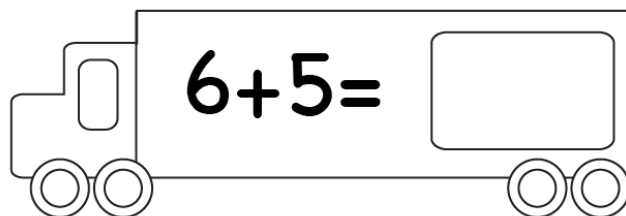

$8+9=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $7+8=$ followed by a large empty square for the answer.

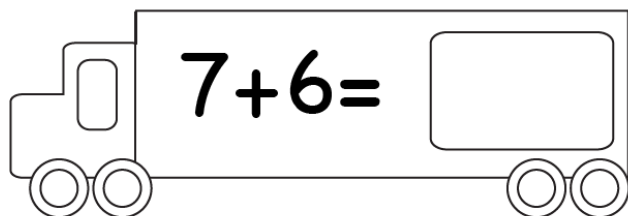

$7+8=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $6+9=$ followed by a large empty square for the answer.

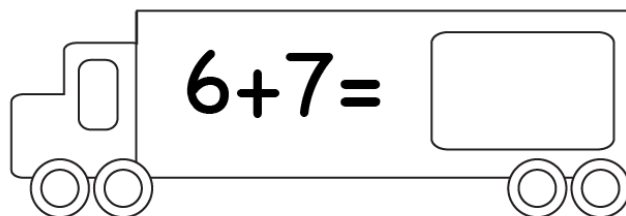

$6+9=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $6+5=$ followed by a large empty square for the answer.

$6+5=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $7+6=$ followed by a large empty square for the answer.

$7+6=$

A truck-shaped box with a cab on the left and two wheels on the right. The box contains the addition problem $6+7=$ followed by a large empty square for the answer.

$6+7=$
