

Adding 3 Numbers

A tractor-shaped box with a cab on the left and two wheels on the right. Inside the box is the equation $5 + 4 + 5 = \square$.

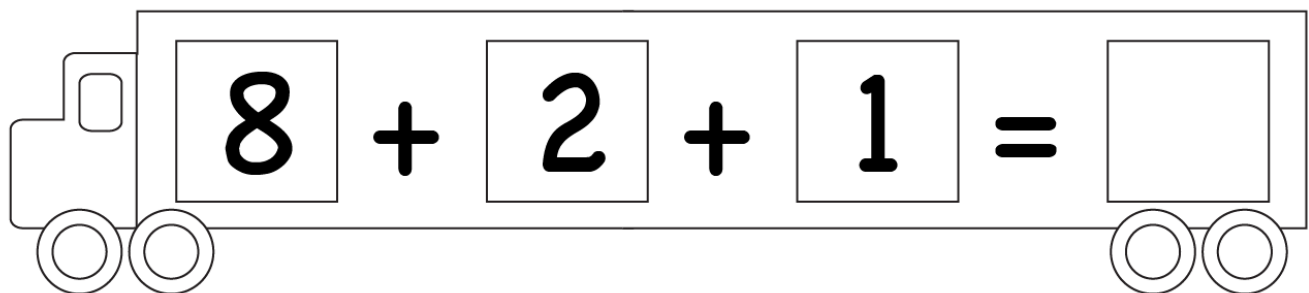

$5 + 4 + 5 = \square$

A tractor-shaped box with a cab on the left and two wheels on the right. Inside the box is the equation $6 + 4 + 1 = \square$.

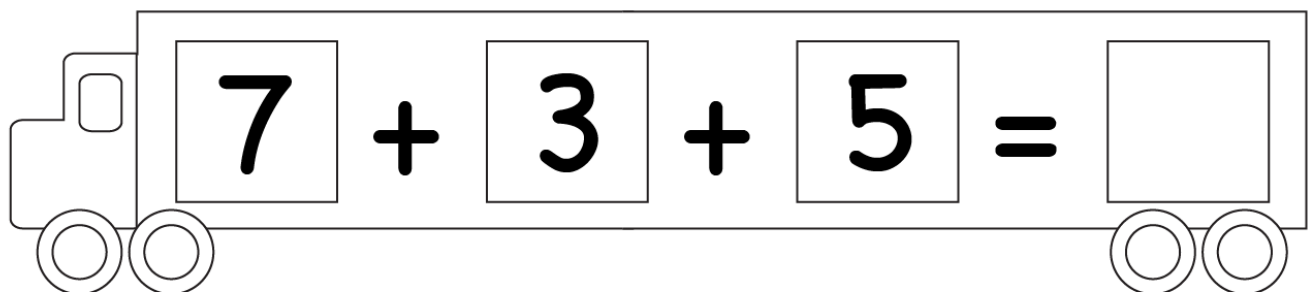

$6 + 4 + 1 = \square$

A tractor-shaped box with a cab on the left and two wheels on the right. Inside the box is the equation $7 + 3 + 4 = \square$.

$7 + 3 + 4 = \square$

A tractor-shaped box with a cab on the left and two wheels on the right. Inside the box is the equation $8 + 2 + 1 = \square$.

$8 + 2 + 1 = \square$

A tractor-shaped box with a cab on the left and two wheels on the right. Inside the box is the equation $7 + 3 + 5 = \square$.

$7 + 3 + 5 = \square$
