

Write four different facts.

A house-shaped grid with the number 8 in the roof. The roof is a triangle with 8 at the top, 3 at the bottom-left, and 5 at the bottom-right. The main body is a rectangle containing four rows of math problems. Each row starts with an empty box, followed by a plus sign, an empty box, an equals sign, an empty box, and another empty box. The second and third rows have a plus sign, and the fourth and fifth rows have a minus sign.

8		+		=		
3		+		=		
5		-		=		
		-		=		

A house-shaped grid with the number 9 in the roof. The roof is a triangle with 9 at the top, 2 at the bottom-left, and 7 at the bottom-right. The main body is a rectangle containing four rows of math problems. Each row starts with an empty box, followed by a plus sign, an empty box, an equals sign, an empty box, and another empty box. The second and third rows have a plus sign, and the fourth and fifth rows have a minus sign.

9		+		=		
2		+		=		
7		-		=		
		-		=		

A house-shaped grid with the number 6 in the roof. The roof is a triangle with 6 at the top, 2 at the bottom-left, and 4 at the bottom-right. The main body is a rectangle containing four rows of math problems. Each row starts with an empty box, followed by a plus sign, an empty box, an equals sign, an empty box, and another empty box. The second and third rows have a plus sign, and the fourth and fifth rows have a minus sign.

6		+		=		
2		+		=		
4		-		=		
		-		=		

A house-shaped grid with the number 5 in the roof. The roof is a triangle with 5 at the top, 3 at the bottom-left, and 2 at the bottom-right. The main body is a rectangle containing four rows of math problems. Each row starts with an empty box, followed by a plus sign, an empty box, an equals sign, an empty box, and another empty box. The second and third rows have a plus sign, and the fourth and fifth rows have a minus sign.

5		+		=
